

## FT390 Series EZ-CEPT Dual API Socket Assembly

### Product Features

- Dual API compatible Sockets
- GFL Guaranteed For Life Stainless Steel J- Slot Ring
- Nose Ring can be removed without disconnecting wire connections
- Pre Wired for easy installation
- Optional Internal ground bolt
- Optional Internal ID Chip
- Heavy Duty Color Coded Dust Caps
- External Mounting Bolts
- Corrosion Resistant Powder Coated finish
- Stainless Steel Hardware and Contact Pins

Part Number	Description
<b>FT390</b>	Dual Socket Assembly
<b>FT390G</b>	Dual Socket Assembly w/Scully Ground Bolt
<b>FT390T</b>	Dual Socket Assembly w/Scully ID Chip
<b>FT390GT</b>	Dual Socket Assembly w/Scully Ground Bolt and ID

## Dixon Bayco Introduces Another First In Overfill Detection!

### FloTech FT390 EZ-CEPT Dual API Socket Assembly

The FT390 EZ-CEPT Dual API Socket Assembly has many features never before offered in an API socket. The FT390 EZ-CEPT provides unprecedented durability, reliability, and ease of installation.

### Guaranteed For Life J-Slots

That's Right! Specify your new tank trailer with any FloTech Overfill System with the FT390 EZ-CEPT Dual Socket and we'll include the new Guarantee For Life J-Slot wear ring. Our unique stainless steel alloy J-Slot ring will probably out last your trailer. Should the J-Slot ring become damaged it can be replaced without disturbing your wiring connections.

### Pre-Wired & Ready To Go

Installation is simple as the unit is provided pre-wired, tested and ready for installation. No more long hours wiring and troubleshooting your socket connections. Simply bolt to the trailer and connect to the onboard monitor.

### Ground Bolt and ID Chip Ready

The FT390 is Ground Bolt and ID Chip ready. The unit can be purchased with Scully Grounding Bolts and ID Chips pre-installed or you may supply your own Ground Bolts and ID Chips and we will install for no additional charge. Please request our FloTech GFL order form.

Both Ground Bolt and ID Chip are mounted inside the FT390 housing to protect from the corrosive elements. Or, the bolt can be mounted to the trailer frame and connect the ground bolt wire to the internal wire terminal. Again, installation so flexibility so you can have it your way!

### Corrosion Resistant

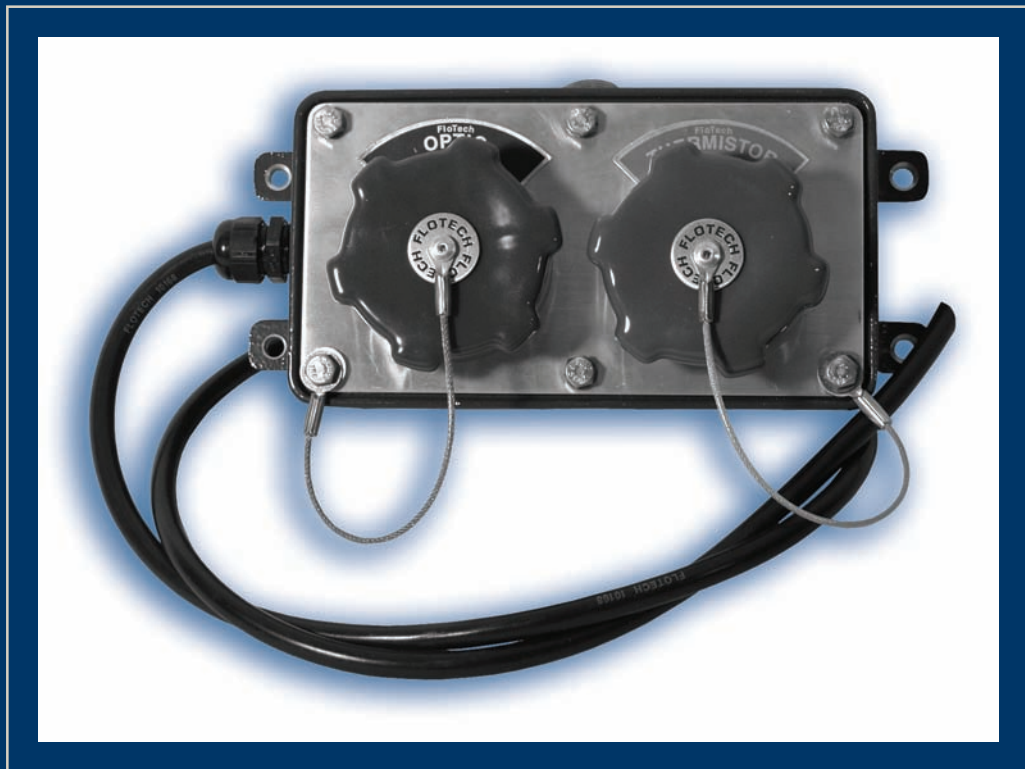

Hard powder coated housing, stainless steel hardware and contacts, and our unique "Keep Dry" enclosure design keeps your trailer in service and corrosion at bay. Take a close look at FloTech FT390 and we challenge you to find a better-constructed API socket on the market.

### Patent Pending

The FT390 EZ-CEPT has so many innovative features it is covered by a patent application through the US Patent Office. Just another example of how FloTech is leading the way delivering reliability and innovation to our valued customers.
