

Compressible Core Teflon® Gaskets

Dixon Bayco is please to introduce Teflon gaskets with compressible core in TTMA sizes for ethanol and solvent service in cargo tanks

Commonly used Cork-Buna gaskets used in petroleum and bulk liquid cargo tanks are no match for ethanol and today's fuel additives. Also, due to warped flanges on older tanks, it is nearly impossible to get a seal with klinger-type "hard" core fiber gaskets. Previous Teflon® gaskets had hard cores that did not permit proper sealing between TTMA style flanges. The new Bayco "soft core" Teflon® gasket provides the proven chemical compatibility of Teflon® along with the compression of the older style Cork-Buna gaskets.

Order and Pricing Guide

Part #	Description	List Pricing for 1-99 pieces	List Pricing for 100+ pieces
40321TF	3" TTMA Teflon® gasket with compressible core	\$8.20	\$7.73
40322TF	4" TTMA Teflon® gasket with compressible core	9.77	9.02
40323TF	4" Sump Teflon® gasket with compressible core	18.67	17.44
